

We understand that you are reviewing a case to change to a new broadcast service (LPFM).

This would effectively remove our ability here in Southern Oregon to receive KLOVE radio for which WE help pay the cost to have the privilege of listening to 24 hours a day.

There are hundreds of thousands of people all over the US who also send hard earned funds to help support KLOVE Christian Radio because we will not allow our children to listen to the trash that is in the airwaves. We will not listen either.

So please, please consider those who willingly support KLOVE Radio because we want the quality programming that they are able to provide our families because of our money helping to support them.

Thank you for listening, we are watching to see the outcome of this.
